AAR INSTRUCTIONS

1. Command
   a. CPO 472 is the AAR Commander.
   b. CPO 472.2 is the alternate AAR Commander.
   c. When forces are integrated on within NWP contact CPO 472 will be the local AAR Commander.

2. AAR Call Sign and Truck Allocations

Notes: 1. Publications marked with an asterisk (*) should be held as a minimum requirement by all participants.
4. Reprint of ACP 176 SEATO Supplement (B) - 1 (including change 0) will be used if distributed in time for the exercise.

2. ACP deficiencies should be fixed with common corrections of ACP and AXP's will be revised and

3. Upon reporting, individual participating units notify respective CTC of any publications deficiencies.

1. Participants are responsible for obtaining latest changes in publications by the same channels through which respective basic publications were received. Data should be updated not later than 12 May 1966.
EXERCISE REPORTS

1. Situation

a. Reports and Action Required During the Planning and Execution Phase of the Exercise. Specific information is required from participating Nations to ensure the successful conduct of the Exercise.

b. A brief Post Exercise Discussion (PED) will take place at HAF Fleet Headquarters Auditorium at 1000 on 6 June. This discussion will supplement formal reports. Attendance will be limited to Flag Officers, principal staff officers, commanding officers or their representatives as directed by participating naval and air units, HAG personnel as specified by the Deputy Exercise Director (Australia) and HEC representatives. The exercise will be discussed in broad terms with the emphasis on lessons learned. Amplifying instructions will be issued by the Exercise Director.

c. Post Exercise Report

(1) At the conclusion of the execution of HETO EX-39 a Post Exercise Report will be prepared and published by the Exercise Director. The Post Exercise Report will follow the format shown in Appendix 1. The report will be forwarded to the Chief Military Planning Office no later than 6 August 1989.

(2) The purpose of the Post Exercise Report is to provide:

(a) Comprehensive information on the scope and conduct of the exercise;

(b) An evaluation of the extent to which the objectives of the exercise were achieved;

(c) An evaluation of the extent to which realism was achieved;

(d) A review of the problems encountered and lessons learned during the conduct of the exercise;

(e) Recommendations for improving current applicable HETO Opcons, publications, standardisation agreements and procedures to facilitate the planning and execution of future HETO exercises.

2. Rehearsal Operation and Analysis Report. A detailed analysis of maritime operations will be carried out in conjunction with the exercise report.
2. **Mission**: To report on UNCO FE-29 within the principles laid down in item 2a.

3. **Execution**

   a. Units of UN 473 will submit signalized reports for the update and transmittal process in accordance with Appendix 1 through CHIANGMAI COE and FOUO as appropriate.

   b. The UNCO will correlate all information forwarded by players, controllers and the various planning groups for the compilation of the final report. (See Appendix 2).

   c. The information required for an analysis of maritime operations in accordance with Appendix 2 to be forwarded to senior headquarters FE-29, BANGKOK, THAILAND not later than 30 June 1965.
1. Format

a. NACO PEO-12 Post Exercise Report

(1) The Post Exercise Report will be prepared by the Exercise Director in the following format.

(a) Section I Report for Command. This is a resume for senior commanders and principal staff officers. Section I will contain the basic information about the Exercise, the list of Exercise objectives and a statement of the major lessons learned and major recommendations made as a result of the exercise.

(b) Section II General Report. Section II will contain the report on the Planning, Execution and Reporting Phases including staff procedures, organization and function reports on the individual planning groups within the NAC, and a list of observers. Section II will also provide a comprehensive guide for the organization, function and method of conducting future exercises of this nature.

(c) Section III Maritime Reports. This section will contain all maritime relevant to maritime/air operations including a report on the liaison aspects with the NAC.

(d) Section IV NOC/Logistic Reports. Section IV will contain all relevant maritime affecting the NAC and Logistic Duties including an assessment of maritime convoy operations on the NAC.

b. NOCAP. NOCAP will submit a report on the Preparation Phase with detailed comments on each major area in the following standard form:

(1) Purpose of the Exercise.

(2) Participants.

(3) Planning Phase.

(4) Execution Phase.
APPENDIX I
ANNEX H to CTF 472 (FOCAF) OPORD 1/69

(5) Operational Aspects.
(a) Maritime
(b) Maritime/Air

(6) Communications - Electronic Aspects.

(7) Public Information and Protocol Aspects.

(8) Problems Encountered and Lessons Learned.

(9) Conclusions.

(10) Recommendations.

a. Brief signalled reports from units of TF 472 are to reach FOCAP by 6 June 1969 and are to include comment on the following aspects of the Transit Phase where applicable.

(1) Scope of Operational Plan.

(2) Supporting Orders.

(3) Departure Screen Operations.

(4) AW.

(5) AAA.

(6) Surface threat.

(7) RAS.

(8) Communications.

(9) Doctrine and tactics in general.

(10) LEP/AS co-operation.

(11) Halo operations.

(12) Problems encountered and lessons learned.

(13) Conclusions.

(14) Recommendations.

b. Communications - Electronic Aspects. A brief narrative evaluation of exercise communications/electronics is to be forwarded direct to Exercise Headquarters Pn.5 by all units of TF 472 by 20 June 1969. This report should cover, and not be limited to, the communications plan, the standard of training of communicators as revealed by the exercise, and other matters as set forth below.

(1) Total traffic volume, in and out by precedence.

(2) Average group count of Ota Code messages.
APPENDIX I
ANNEX H to
CTF 472 (FOCAF) OPORD 1/69

(3) Average time required to encode and decode Ops Code messages.

(4) Adequacy of the various Ops Codes to clearly convey the originator's intent.

(5) Traffic backlog by circuit, including message count by precedence and duration.

(6) Adequacy/shortcomings (as appropriate), found to exist in the SHAPC approved C-B publications and/or operating procedures. Include recommended changes.

(7) Message preparation (language, clarity and conciseness, classification, use of precedences.....).

(9) Tactical Circuit Logs - one copy each of Primary tactical, Secondary tactical and CIF circuit logs.

(10) Specific comments/recommendations are invited concerning the adequacy of the electronic warfare policy as reflected in Appendix 9 to Annex G.
APPENDIX 2
ANNEX A
CIF 473 (FOCAP) OPORD 1/69

MARITIME OPERATIONS ANALYSIS REPORT

1. General. To assist in the compilation of the analysis, records
will be kept by all units. Care should be taken to make the reports as
accurate as possible and in particular all claims used for record
keeping should be checked to ensure that times are correct to the
nearest minute. ALL RECORDS ARE TO BE IN ENDS BY 20 JUNE. Plotting tables
should be checked against a distance fuse, and errors removed before the
exercise.

2. Carrier Based Interdict Activity.
   a. The following records are to be provided from all combat
      vessels, A/S, surface search and intercept missions:
      (1) Narrative of the contact (to include details of
          sightings, attacks and target course/velocity).
      (2) Track and height diagram showing sightings and
          targets.
   b. The records are to be forwarded to reach Host Country
      Headquarters PIX-39 SAINTE, THAILAND not later than
      20 June 1969.

3. A/S Helicopter:
   a. The following records are to be provided from all sorties:
      (1) Co-pilot's log.
      (2) Underwater tracking plot (scale preferably 1,000
          yards to 1 inch).
   b. The records are to be forwarded to reach Host Country
      Headquarters PIX-39 SAINTE, THAILAND not later than
      20 June 1969.

4. Surface Ships
   a. The following records are required from surface ships as
      appropriate:

      | RECORD # | TITLE                        | REQUIRED RECORD ENDS |
      |----------|------------------------------|----------------------|
      | 01       | Commanding Officer's Narrative| Navigating Officer    |
      | 02       | General Operations Plot.     | Plot Operator         |
      | 03       | Local Operations Plot.       | Plot Operator         |
      | 04       | A/S Action Plot. Scale 500 or 1,000 yards to 1 inch (as Include disengaged torpedoes/ splash point). |
      | 05       | Skip's Position Log          | Navigating            |

---

DECLASSIFIED
5. AFF IX/4 Aircraft.
   a. The following records are to be provided from all services:
      (1) Co-pilot log.
      (2) Post-flight evaluation of THERMEX contacts (not required from AFF IX/4 aircraft).
      NOTE: Magnetic tape recordings, folio tapes, and XRT tapes are not required.
   b. The records from each aircraft will be fastened together and placed in an envelope with the records of all other
c. The records are to be forwarded as for Ph. and Pn above.

6. Ship Records. The following ship records will be

I. **Intelligence Mission**

a. **General.** To collect and report all information of a possible intelligence value to support H.I.'s listed in paragraph II.

b. **Scope of Intelligence Coverage.** For the purpose of this plan, intelligence on the Argentine and South American naval and air activities in the common EN签CHECK area of operation, including coastal areas, will be considered to fall within the category of operational intelligence.

c. **Collection Responsibilities.** All NSNO maritime major commands and subcommands will have collection responsibilities within their collection capabilities. For common purposes only, specific collection agencies will be requested to collect and report intelligence in accordance with the collection plan.

2. **Reporting Elements of Information.** The H.I.'s listed below are those required by the NSNO to maintain strained force to carry out the mission of enquire of NSNO Field.

a. **In regards to general intelligence.**
   
   What is the overall strength, location, disposition, organization, equipment, morale and effectiveness of NSNO maritime forces in the South America area?
   
   NSNO maritime forces in South America.

b. **In regards to specific enemy intelligence.**

   (1) Has the enemy prior knowledge of this communication?
   
   (2) Will the enemy reconnaissance aircraft to gain knowledge of movements of enemy in order to position submarines for torpedo attacks?
   
   (3) Will the enemy have knowledge of NSNO maritime reconnaissance operations in order to replenish except from source?
   
   (4) Will the enemy use submarine intelligence to report to enemy force report on enemy?

c. **In regards to submarine torpedo attack operations.**

   (1) How many submarines are deployed continuously in the operational area of concern and in what specific area?
(2) Where are the submarines most likely to launch
torpedo attacks?
(3) Are the enemy submarines likely to attack singly
or in groups of 2 or more?
(4) Will the submarines have advanced base support
from submarine tenders in remote areas such as
THREME, INASHI and Cambodian territorial waters?

4. In regards to enemy mine laying operations:
(1) In what area are enemy mine fields most likely to
be placed in approaches to HAKILA/BATAKAI in
order to be most effective?
(2) Is there evidence of surface craft such as patrol
boats, torpedo boats, fishing boats or other small
craft being seen in sea approaches to HAKILA/
BATAKAI possibly engaged in laying mine fields?
(3) If submarines are used for mine laying, has there
been any detection of possible mine laying opera-
tions?
(4) What type mines are likely to be used, influence/
magnetic etc.? What type?
(5) Are counter sweeping devices used on mines? What
type?
(6) How are mines planted? Rosed, bottom, etc.?

5. In regards to torpedoes/missile torpedoes operations:
(1) Will torpedo boats make open ocean transit to
attack convoy? Have any been detected?
(2) Will torpedo boats/small craft make coastal
transits to accomplish torpedo attack or mine
laying missions? Have any been detected?
(3) Knowledge of concentrations of small craft in
operational areas is an RE.

6. In regards to land based bomber attacks or aircraft
reconnaissance:
(1) Have communist reconnaissance aircraft been seen
in the operational area prior to convoy sailing?
(2) Have communist reconnaissance aircraft been
detected within radar/visual range of convoy
during transit?
(3) Have enemy bombers been sighted en route to
vicinity of convoy?
1. **Collection Plan.** A general intelligence collection plan has been in effect and has resulted in the intelligence presented in the 73-74 OFFICE (ΟΟΟΑ). However, the need to update intelligence to provide the HN's listed paragraph 2 is an existing and continuing requirement. Supplemental intelligence collected in support of HN's will be submitted in accordance with R.O.P.A.

   a. Subordinates and attached units will submit the following reports:

   (1) **Spot Intelligence Reports (ΣΤΕΙΡ)** will be utilized to report to the HN the Director and Task Force and Task Group Commanders, essential intelligence covering events or conditions that may have an immediate and significant effect on exercise planning and operations, and which respond to HN's. The ΣΤΕΙΡ will be submitted by all commanders, either to the HN and 2nd in Command or to the other HN's and CN's as appropriate as events occur. The ΣΤΕΙΡ may be used to report both raw and evaluated information, and should be classified.

   (2) **Reports** by air and surface units will be made to the HN in accordance with Chapter II, Vol. I, ΤΕΙ-Δ(Α).

   b. **Heterogeneous.** Each HN will assign an intelligence officer to each HN's. In particular, intelligence values are reported to intelligence officers by escort monitors on to activities of small craft in the area of operations.

   c. The HN will have responsibility for collection, evaluation and dissemination of operational intelligence to those who need to know. It is expected, however, that all subordinate commanders will exercise initiative in effecting lateral distribution of urgent intelligence such as enemy contact reports and ΣΤΕΙΡ.
1. **Security Reading**

   a. The word "SECRET" is a marking, which when applied to a document, signifies that the document:

      (i) is the property of the Southeast Asia Treaty Organization and if classified must not be passed outside the Southeast Asia Treaty Organization.

      (ii) If classified, is subject to the security protection set forth in the SECRET Security Manual and outlined in this document.

   b. All personnel coming in contact with SECRET classified material (e.g., typists) must have an appropriate SECRET clearance.

   c. The SECRET marking immediately followed by the security classification, should appear to hold (preferably not) print on the top and bottom of each page of a document.

   d. Every SECRET classified document must bear a reference number and date of issuance. Each page of each classified document will be sequentially numbered and bear the reference number.

   e. SECRET and SECRET documents will, when, be marked with the copy number and the total number of copies. Each SECRET or SECRET document will show the total number of effective pages on the first page.

   f. Only the originator (commander concerned) will reclassify or demote any restriction document.

   g. An appropriate cover sheet indicating the highest classification of the attached material will be affixed to all classified documents not in storage or in use.

   h. The marking, location, and geographical locations of this document, as well as the minutes for SECRET, will be classified SECRET CONFIDENTIAL until officially declassified on 23 April 1969, when approved by the SECRET Staff. This type of information may be declassified in accordance with Appendix 1 to Annex E.

2. **Hsioon Requirements for Secretaries Classified Material**

   a. Whenever SECRET or SECRET material is left unattended (even for a few minutes), the material must be locked away in a three-position combination lock box.
ANEX I
CIT 07 (FOCAF) OPORD 1/89

1. Whenever SENSITIVE material is left unattended, the motor must be locked away in a steel filing cabinet fitted with a locking bar and combination padlock.

2. SENSITIVE material should at least be stored in a locked metal container, whenever an office is to be left unattended.

3. In all cases, care must be taken to ensure that security containers in which classified documents are stored, and limited in access to those staff members who are authorized to handle the most highly classified documents stored therein. Security containers should be labeled, based on personnel having access, as to the highest level classified material they can hold.

4. Moreover the aforementioned provisions cannot be complied with, or the document is no longer needed, the classified material must be returned to the Documentation of the Unit Security Central Officer.

5. After duty hours all classified material should be placed in a secure, centrally located, strong room under 24-hour surveillance. If this is not feasible, a 24-hour guard will be placed on all SENSITIVE and SENSITIVE containers, and frequent checks of all other classified containers will be carried out.

6. Related to Security. Any suspected or confirmed violation, compromise or other breach of SENSITIVE security is to be reported immediately to the Unit Security Central Officer, the SENSITIVE Auditor, the Documentation Central Officer, and the Research Director.

Principals of Security. Principal security measures include:

a. Employment of classified information over non-secret communication channels.

b. Deployment of classified material in the presence of unclassified personnel.

c. The physical limitations of the various buildings and accommodation which will be used during the exercise.

d. The presence of crew members with various committee units.

7. Counter Espionage

a. The detection and location of potential intelligence collection vessels, submarines or aircraft in the vicinity of the exercise forces is to be reported by REGULAR SUBMARINES in accordance with Annex 2 to Op. 472, Security Director and national authorities. Appropriate national authorities will be instructed regarding policy by the national authorities.

b. Any personnel approached for classified information concerning the exercise is always assumed to belong to the identity and whereabouts of the lineup. The individual will report the contact as soon as possible to the Unit Security Central Officer.
5. **Instructions:**
   a. The Chief of the CIB will be the Deputy Director (Military) Public Information Officer, Headquarters SHAF (J-2/CHQ).
   b. The Sub-CIB IND STATES from 23 May - 8 June will be manned by:
      1. IND STATES's PR in charge.
      2. One IND STATES Journalist CJF/POC News Writer.
      3. One two-man IND STATES Graphic Team.
      4. Assistance of enlisted personnel as required in IND STATES as follows:
         a. Photographer Bellows.
         b. Adams, FO.
         c. Runners and Reporters as necessary.

6. **General Tasks:**
   a. CIB and Army Sub-CIBs. The CIB and Sub-CIBs are responsible for originating, processing and distributing information materials concerning the war either provided by the Services or by participating units and commands in the area. In addition, they are responsible for the conduct of press relations with news media representatives and agencies. This includes stimulating and maintaining their interest in the exercises, recruiting their services for information, and assistance in covering exercises and progress and serving as the link between news media representatives and participating units and commands.
   b. Sub-CIB - IND STATES. The Sub-CIB IND STATES as the chief source of news and feature materials pertaining from exercises will be responsible for gathering and transmitting the IND STATES a coordinated and current account of the exercises.
   c. Activity Brigade. The "big picture" events of each day can only be compiled if selected units provide the necessary information to write the stories. All units are to report where practicable, two news stories (RIIHES) daily to the Sub-CIB IND STATES. One RIHHE is mandatory on the day following the occurrence of events. The other RIHHE should be dispatched by 1200 (local) the same day. The RIHHEs must be in press release form and complete, concise and descriptive. Some news features of personnel interest and especially useful as news items. Non-essential summary reports of events should be transmitted by message as soon as possible and not held for the written. RIHHEs will be classified IND STATES CONFIDENTIAL until approved for release by the CIB or Sub-CIB. A precedence of PRIMARY is to be assigned all RIHHEs.
DECLASSIFIED

ANNEX E
CTF 47 (POCAP) ORDER 1/69

4. All units. Reports of accidents involving serious injury or death should be transmitted at once to the National Authority concerned and the CEF and will be released only upon approval of the Exercise Director. Hence of casualties will not be released until 10% of the action has been completed through national channels.

7. Preexercise Testing. For information the following outline specific tasks of the CEF and Sub-CED.

8. CEF and Sub-CED NARNA

(1) Establish liaison with the HMSO Liaison Officer and with the national information services representatives or press attachés of participating nations present in NARNA.

(2) Devise a combined news media distribution list to serve both HMSO and individual national interests.

(3) Establish direct contact with local NARNA news media.

(4) Devise a plan for press coverage of exercises units upon their arrival during assembly phases.

(5) Devise a plan for pre-exercise news briefings in NARNA.

(6) Ensure interest of NARNA based news media representatives covering any phase of the exercises from on board participating units and devise a plan to permit this.

(7) Provide all unit PTOs with material provided by HMSO headquarters for the organization for use in familiarizing themselves with HMSO.

(8) Provide to all units and command PTOs sample PRESS messages and descriptions of possible events, accomplishments, developments and circumstances which might be of interest as feature material and for news items during the exercises.

(9) On receipt from Sub-CED HMSO BROADCASTER of NARNA, edit and issue as necessary reproduce and distribute news media agencies in NARNA, and in other HMSO Nations and to the Sub-CED in NARNA by signal while CEF is in NARNA.

(10) Devise a Publicity Plan for Opening Ceremony.

9. CEF and Sub-CED at NARNA

(1) Establish liaison with HMSO PTO, AERON, NARNA and WOCIS and other national information service representatives or press attachés of participating nations in NARNA.

DECLASSIFIED
(2) Devise a combined media distribution list to serve both NATO and individual national interests.

(3) Establish direct contact with local ARMEK media.

(4) Prepare the exercise Press Kit and distribute 30 copies to ARMEK CIB and retain balances for distribution to ARMEK media representatives as appropriate.

(5) Require to localize and distribute advance media releases received from the ARMEK CIB.

(6) Ascertain interest of ARMEK based media representative in covering aspects of the exercise and devise a plan to meet these wishes.

(7) When acting as CIB, edit and rewrite, as necessary, DRESS received from Sub-CIB ARMEK HELLOCEN and reproduce and distribute to media agencies in ARMEK and in other NATO Nations and sign Sub-CIB ARMEK.

(8) Devise the plan for press coverage of Closing Ceremony.

(9) Devise a plan for press exercise media briefing either in NATAKF or in ARMEK.

c. Sub-CIB ARMEK HELLOCEN

(1) Establish Sub-CIB ARMEK HELLOCEN.

(2) Establish liaison with appropriate units FIOs during assembly phase.

(3) Establish with appropriate Communications Officers in the Task Force.

(a) A communications delivery system for ARMEK messages via the Task Force calling circuit and relayed to CIB by press services.

(b) A schedule for transmitting message press releases (PRESSREL) from SHS HELLOCEN to the CIB and the Exercise Director.

(c) A system for handling press copy originated by embased media representatives to ensure its prompt transmission for commercial relay. All press traffic handled on Naval circuits is to be accorded the procedure PRESSREL.

(4) Arrange for prompt review and clearance of exercise PRESSREL and press copy submitted by embased media representatives to ensure that no more than one hour elapses from receipt of press copy to its
transmission to destination. The Press Security Plan in Para. 1 is appropriate.

(3) Give assistance, support and direction to military photographers, cinematographers and journalists assigned to facilitate their work and ensure productive results.

(4) Select, caption and transmit by COM aircraft to the DSD 10 copies (or an original negative) with complete caption information of news photographs to DSD advising by signal of departure.

(7) Transmit by COM aircraft to DSD unprocessed TV clipsheets with data sheets and tape recorded interviews with data sheets.

(8) Co-ordinate visits of news media representatives to participating units ensuring that an adequate number of officers or senior enlisted members are available and have been instructed on their responsibilities.

(9) Co-ordinate dispatch of messages and film of on-board corresponder by COM aircraft.

(10) Be prepared to advise on proper handling of any serious accident or incident. This will involve both EMRO and national consideration. Messages PREEMPT to DSD concerning such contingencies are not to contain the names of personnel, the release of which is a national responsibility. The Exercise Director will make all decisions concerning release or non-release of information on the contingency itself as an exercise news release.

(11) Keep copies of all EMRPREM messages and other news and feature releases as part of report for onward dispatch to the Chief OIS at completion of exercise.

8. Embedded News Media Representatives

a. Units of Task Force 472 will be required to embed news media representatives to cover phases of the exercise in accordance with the plan devised by the DSD NAVAL. These visits will be co-ordinated by the Sub-CDS NAVAL BUREAU.

b. All units are to inform CTF 472 by 5 May 1969 of accommodation available for news media representatives during the exercise.

9. Final News Copy Submitted by Embedded News Media Representatives

a. Facilities are to be provided for news representatives embarked in naval units to cover noteworthy aspects of the exercise and to snack their material thereon.
ANNEX I:

Annex I, CTF 47 (POC) Opord 1/69

b. Photographers will require facilities to load film aboard and they should be informed in advance of all CIB flights and mail drops.

c. New representatives filing stories for radio transmission are to be lodged with a designated officer for security clearance. The security officer is to be responsible for lodging the material with the communications officer for transmission. All PRIORITY messages at the first opportunity operational traffic permits.

d. Press material should be transmitted strictly in order of receipt by the communications officer. The new representative should be informed of the time of dispatch and, in the event of a delay in excess of one (1) hour after the material has been lodged with the communications officer he should be informed of the delay and the estimated time of dispatch.

e. Security is the only basis on which changes should be made in a new representative's message, when this ensures the new representative should be advised of the new necessity of deleting the classified information. Requests of fact or irresponsible statements should be brought to the representative's attention but cannot be deleted without his permission. If he refuses to change such a message it should be sent in its existing form. Simultaneously a true statement of the facts should be signalled to the Sub-CIB MELBOURNE, which will inform the CIB.

10. Pre-Release Publicity

a. Until the initial press release has been cleared by Council Representatives on publicity or disclosure of any matter pertaining to Exercise CIB PHX 69 is to be given.

b. The initial press release embargoed until 25 April 1969, subject to approval by the SEATO Council, will be prepared by the Exercise CIB and then processed through the RPO to the Council representatives for approval.

Copies will be supplied to the CPO and SMCs by the RPO. Members nations are encouraged to give the earliest national distribution practicable upon receipt of this approved initial press release.

c. Publicity subsequent to the initial press release and prior to activation of the CIB and Sub-CIB will be at the discretion of participating Member nations. All publicity is to be in accordance to the guidelines furnished by the RPO at the time of the distribution of the initial release.

11. Reports: The Sub-CIB MELBOURNE is to collect documents and prepare comments necessary to support report requirements specified in Section 6 to Annex A of SEAP 47.
