4. ROUTE: See patrol route overlay.

5. OBSERVATION OF ENEMY AND TERRAIN:
   a. SYNOPTIC: 54 1/2 hours of reconnaissance and surveillance resulted in (5) enemy sightings totalling estimated 30 VC and (2) contacts. Patrol called (2) artillery mission expending a total of (16) rds, requested gunships and fixed wing which supported patrol during both contacts. Contacts resulted in (5) VC KIA (Conf), (3) VC KIA (Prob), (4) VC WIA (Conf) and one USMC WIA. Patrol captured (1) VCC who was evacuated to TTT, found trail not shown on map and observed numerous other trail complexes all of which appeared to be well used. The following equipment was captured: (1) AK-47 assault rifle, (1) cartridge belt w/1st aid kit, (4) magazines, (1) Chicom grenade, and (1) pocket knife.
      b. ENEMY: (1) 081150H (Y989967) Patrol while in OP position observed (1) VCC moving northeast dressed in a blue shirt and purple trousers carrying a pack and hunting knife. Patrol apprehended VC and requested evacuation of VCC by Halo. Halo arrived approximately 1230H and evacuated VCC to TTT. Patrol continued mission.
      (2) 081400H (Y989967) Patrol made contact with 10 VC moving southwest on trail dressed in khaki shorts and shirts, bamboo helmets, rubber sandals, and armed with automatic and semi-automatic weapons. Patrol took VC under fire with SAF and M-79. VC returned fire and broke contact. Patrol requested gunships. AO, fixed wing and gunships arrived on station and expended ordinance into target area. After aircraft expended ordinance patrol went into target area and found (1) VC KIA (Conf) and heavy blood trails. Patrol estimated (4) VC WIA (Conf), due to heavy blood trails found in target area. The following gear was captured: (1) AK-47 assault rifle, (4) magazines, (1) cartridge belt w/1st aid pouch, (1) Chicom grenade, (1) pr rubber sandals, and grey plastic poncho. Patrol leader stated that the VC KIA was wearing black I. J.'s under his uniform. He further remarked that the VC uniforms appeared to be new.
(3) 091238 (YC989966) Patrol while in OP site observed estimated VC platoon moving towards their position from the southeast following route patrol had used. Patrol engaged VC with SAP and M-79, killing (2) VC (Conf) and sustaining (1) USMC WIA (MINOR). Patrol broke contact and moved west across stream and called one artillery mission of (9) rds with good target coverage results unknown. At this time movement and voices were heard around their new position and extraction was requested. Prior to extraction helo's arriving, an AO and gunships arrived on station and gunships strafed target area. Fixed wing aircraft arrived on station and expended ordnance into target area. Extraction helo's arrived making two unsuccessful attempts to extract patrol due to receiving heavy SAP. As the extraction helo's withdrew the second time patrol again engaged VC with SAP resulting in (2) VC KIAF (Conf). Fixed wing and gunships made another strike into target area. The third attempt at extraction was successful. Patrol extracted at 091530H. A0's fixed wing and huey gunships were still on station. Contact with the enemy resulted in (4) VC KIAF (Conf). Patrol was unable due to the dense vegetation, to assess casualties from fixed wing and gunships. Only two VC were visually observed and they were dressed in khaki uniforms w/bamboo helmets.

c. TERRAIN: This area is characterized by a dense secondary growth on the high ground, with a canopy averaging 150 feet in height. The low ground has dense vegetation, interwoven vines, and steep embankments along eastern side of stream on the western side, the embankment has a gentle slope making movement favorable to foot troops.

d. OTHER INFORMATION: (1) 071030H (YC989969) Patrol found trail not shown on map running parallel to the river. Patrol set up ambush and while in position scout dog alerted to movement to patrol's rear, moving from southeast to northeast. Artillery mission of (9) rds was fired at suspected enemy position with unknown results.

(2) Area has numerous trail complexes all of which appear to be well used.

6. RESULTS OF ENCOUNTERS WITH THE ENEMY:

a. ENEMY: (1) VC, (5) KIAF (Conf), (3) VC KIAF (Conf), and (4) WIA (Conf)

b. FRIENDLY: (1) WIA

c. CAPTURED/EQUIPMENT: (1) AK-47, (1) cartridge belt w/1st aid packet, (4) magazines, (1) Chicom grenade and (1) pocket knife

7. CONDITION OF PATROL: Good, Morale excellent

8. CONCLUSIONS AND RECOMMENDATIONS:

Recommendations: (1) Area be exploited by infantry unit.
(2) That radio relay be maintained at X-Ray relay during operations in RZ#5.
(3) Continual utilization of the scout dogs especially when operating in the lowland areas with known or suspected trail complexes.

Conclusions: Area to the east (YC9996) and southeast (Y0996) harbors enemy forces of unknown size. Possible training area/base camps are considered probable.

G. E. STERN JR
1stLt 3d Force Recon

9. DEBRIEFER COMMENTS: Concur with patrol leaders recommendations and conclusions. Replier report of 2 Nov placed the 910th battalion in this area and weapon/uniforms indicate the presence of a well organized, equipped unit.

   (2) 051340H (YD593204) Patrol observed (2) VC dressed in black P.J.'s moving south in boat. Both VC had weapons. An artillery mission of (5) rds was fired with unknown results.

   c. TERRAIN: This area is characterized by dense vegetation, interwoven vines, and steep ravines making movement extremely difficult. Vegetation averages 10-12 feet in height.

   d. OTHER INFORMATION:

   (1) (YD607254) The village of AD LAI BANG, at these coordinates, appears to have heavy VC activity. Throughout the duration of this operation the patrol heard constant and heavy SAF/AV fire coming from within.

6. RESULTS OF ENCOUNTERS WITH THE ENEMY:
   a. ENEMY: (15) VC KIRKP (Conf) and (5) VC KIRKP (Prob)

7. CONDITION OF PATROL: Good, Morale good

8. CONCLUSIONS AND RECOMMENDATIONS:

   Recommendation: The infantry conduct an operation in the village of AP LAI BANG to clear the area of enemy activity.

   Conclusions: Village of AP LAI BANG is occupied by enemy forces and is utilized as a training facility. Enemy activity in this village is constant.

   T. T. FUIDE
   SGT 3d Force Recon

9. DEBRIEFER ELEMENTS: Concur with patrol leader's recommendation. All patrols operating in this same general area reported SAF/SAW fire coming from AP LAI BANG and the village of AP THANH TAN. Four enemy base camps have been located in RZ II which is due south of these villages. The Song Bo river, and trail's found by the patrols make ingress, eggress, and logistical efforts extremely convenient for enemy forces to operate in this area.

5. OBSERVATION OF ENEMY AND TERRAIN:
   a. SYNOPSIS: During 99 hours of reconnaissance and observation 2
      contacts and 3 enemy sightings were made totaling 43 VC. Four fire
      missions were called in support of the patrol, 134 rds of 155 howitzer
      H.E. were expended. The patrol located a fortified position consisting
      of approximately 25 fighting holes and a complex of trails.
   b. ENEMY: (1) 131710H (YD524235) The patrol was moving through
      the jungle breaking a trail when the point heard movement and talking up
      ahead. The patrol stopped and listened. A few minutes later 1 VC pushed
      the brush aside and the patrol opened fire wounding the VC (Conf).
      There was movement in the brush and the patrol threw 2 hand grenades
      and the movement stopped. The patrol went down and checked the area
      and found that the VC were cutting to improve the trafficability of the trail.

   (2) 141100H (YD526232) The patrol was moving along a dried
      stream bed when the point heard an estimated 3 or 6 VC moving in the
      brush. The patrol called in 16 rds of 155 howitzer which were delivered
      with good effect on target. No damage assessment was made.

   (3) 141330H (YD525255) The patrol was set in an OP when they
      sighted 33 VC some of which were women. The VC were dressed in black
      P.J.'s, khakis, and mixed P.J.'s and khakis. They were moving north on
      a cart trail and all carried packs and had some sort of camouflage brush
      or material, only 2 were observed with weapons. A fire mission was called
      in and 36 rds of 155 howitzer HE were fired with good effect on target
      resulting in 5 VC KIA (Prob) and 6 VC WIA (Prob).

   (4) 161100H (YD525255) The patrol was set in the same OP as on
      14 Nov when they sighted 8 VC dressed in khaki and P.J.'s moving
      south on the same cart trail. One man was armed and all carried large
      boxes. A fire mission of 10 rds of 155 howitzer HE was fired with good
      effect on target, resulting in 5 VC WIA (Prob).

   (5) 171020H (YD526236) The patrol was set in the defense waiting
      for extraction when the security heard movement on a trail. The security
      fired on the first VC and threw a CS grenade. SAF was returned until the
      CS grenade went off. The VC started screaming and running down the hill
      in front of the patrol. The patrol opened fire with small arms and hand
      grenades, and M-79 rds resulting in 6 VC WIA (Conf). 52 rds of 155 howitzer
      were delivered with good coverage on target. No damage assessment was made
      on the fire mission. After the patrol was extracted 20 more rds of 155
      were fired into the area.

TERRAIN: This area is characterized by thick secondary growth consisting of brush and intertwined vines. Canopie ranges from 30 to 50 ft in height. A patrol could travel 250 meters per hour along trails.

a. OTHER INFORMATION: (1) 151200H (YD524234) The patrol was moving along a trail near where they made the first sighting and contact when they located an abandoned enemy position consisting of approximately 25 1-3 man fighting holes. The one man holes were 3 ft long, 2 ft wide and 4 feet deep. At the end of each hole was a shallow dugout which would protect a man from an artillery shrapnel. The three man holes were shaped like a donut and also had a dugout large enough to protect three men from an explosion. These holes were 8 ft in diameter, 4 ft deep, and had a 2 ft center. One US steel helmet, 1 7.62 mm cartridge, and 3 M4-79 casings were found. The whole area has a well used trail complex running to the fighting holes. The trails were 1 meter wide and well worn. The overhanging canopy concealed the trails and natural concealment covered the fighting holes. New coon wire was found in the area set up as a guide line along the trails. The wire was tied tight about waist high.
