As there was an unserviceable weapon of unknown type and three AK-47 magazines, assorted C-ration cans and empty ammo boxes, site appears to have been used by small groups of enemy within the last few weeks as there are numerous shallow trails running in all directions from the site. XD909232 TO OBSERVED two bunkers which could accommodate two men and were three feet high, three feet wide and four feet long. XD906232 TO OBSERVED an abandoned base camp which could accommodate approx two enemy companies, site consisted of well constructed bunkers and a connecting trench line and appeared to be approx one month old with no signs of recent use. During patrolling patrol TO HEARD small arms fire to the south and south-west. During contact TO OBSERVED enemy to be wearing gray utilities, cartridge belts and unknown type weapons.
