i. B/2-11 Arty (155).

3. Intelligence: Operation APACHE SNOW was conducted in the northern portion of the A SHAU Valley which was a primary enemy LOC used for movement of material and infiltration of troops and enemy units throughout I Corps area. The enemy had maintained logistics installations and base camps in the northern A SHAU Valley which distributed supplies and replacements to units operating in QUANG TRI and THUA THIEN Province. The importance of the northern A SHAU as a vital location had increased when the friendly operations began to interdict other key enemy locations in Northern I Corps area. The senior enemy headquarters in this area was the TRI - THIEN - HUE Military Region (TTHMR). This HQ's, equivalent to Corps level, was responsible for military and political activities in QUANG TRI and THUA THIEN Provinces and the border area of eastern Laos. Principal combat units were 6th, 9th and 29th NVA Regiments, each with a reported strength of approximately 1800 men. Additionally, the 675th Arty Regt was reported to have been operating in the A LUOI - A SHAU area and Base Area 611, in eastern Laos.

9. Mission: At H-Hour on D-Day (100730 May 1969) the 1st Bn, 506th Airborne Infantry conducted a combat assault along the Laoian border into LZ RED (See incl 1), to destroy NVA/VC forces in assigned area of operations, interdict Route 923 from Laos, and locate and destroy enemy caches within assigned AO.

10. Concept of the Operation: Two concepts of operations were planned for the execution of this operation and are listed below. It will be noted that the alternate concept of operation was not necessary in the actual execution of this operation.

a. The 1st Battalion, 506th Airborne Infantry conducts a combat assault with three companies into LZ 1 (LZ RED) from PZ loc in staging area at FSB BLAZE with BRAVO Company inserted first to secure the LZ and seize Objective 1. CHARLIE Company and ALPHA Company following in that order, occupy
Objective 1 and seize Objective 2 respectively. The first insertion will be supported by a TAC air prep from H-50 to H-15 with a 15 minute artillery prep commencing at H-15. Priority of fires to units in contact.

b. Alternate Concept of Operation: In the event LZ 1 (LZ RED) becomes unusable, Bn conducts combat assault with three companies into LZ 2 with BRAVO Company being inserted first to secure the LZ and seizure Obj 1A, CHARLIE and ALPHA Companies following in that order, seize Obj 2A and 3A respectively. LZ prop and priority of fires remain the same.

11. EXECUTION:

a. Operations order 12-69 (APACHE SNOW) (U), this headquarters was published in preparation of this operation. Method of operation to execute OPORD 12-69 was as follows:

(1) A/1-506 Abn Inf. Conducted combat assault on LZ RED following OA by B/1-506 and C/1-506; moved to and secured Obj 3; and conducted reconnaissance in force and search and destroy operations in assigned AO.

(2) B/1-506 Abn Inf. Conducted combat assault on LZ RED; secured LZ RED for companies A, C and Command Group; seized Objective 1 and 2 on order; conducted reconnaissance in force and search and destroy operations in assigned AO.

(3) C/1-506 Abn Inf. Provided security for the Command Group; combat assaulted on LZ RED; occupied Objective 1; and initially assumed OPCON of the 81mm Mortar Section in direct support of operation until extraction of the 81mm Mortar Section on 12 May 1969.

(4) D/1-506 Abn Inf. Conducted heliborne movement commencing 080845 to vic TA BAT (YC 399949) and established security for construction of FSB CURRABEE; prepared to become 3d Brigade RRF effective 100730 May with one platoon on 15 min alert and remainder of unit on 30 min alert; assumed OPCON of 81mm Mortar Sections in DS of FSB CURRABEE.

(5) E/1-506 Abn Inf. RCN Plat released OPCON to 3d Bde eff 081200 May 1969. Ground Surveillance Section displaced to FSB CURRABEE.

(6) Radio Relay Elm/HHC/1-506 Abn Inf. Moved to FSB EAGLES NEST from FSB BLAZE and acted as relay between forward units and Command & Control Headquarters and Rear Tactical Operations Center.

b. Operations Narrative:

(1) D Day (10 May 1969):

Operation APACHE SNOW commenced at 100730 hours, May 1969 as the
first lift of Co B took off from the PZ vic FSB BLAZE for insertion into LZ RED. Insertion of B Company, was followed by Co C with the Command Group and 81mm attachments, and Co A was inserted last into LZ RED, completing the insertion at 1110 hours, 10 May 1969. Co A conducted reconnaissance in force operations in preparation to seize Objective 3. Co B (vic YC 312937) killed 1 NVA officer with small arms. Officer was wearing a 9mm pistol and carrying an AK-47. The NVA officer was dressed in khakis and a thorough search of the body revealed identification photos, and documents which were later confirmed to be plans of attacks on US positions. At 1300 hours, (vic YC 321929), Co B found a bunker and hooch complex consisting of 14 bunkers containing 60-60mm mortar rounds, 96 RPG rounds, 1 RPG-2 launcher, 40-62mm mortar rounds, 6 RPD MG's, 5 AK's, 14 ruck sacks and 1 Chiccom MG. (8) D' Day + 7 (17 May 1969):

(a) Co A: Operations continued. Contact w/enemy began with incoming mortar rounds at 0640 hours. Location of mortars were unknown and no casualties were suffered. At 0950 hours, Co A departed vic YC 323969 moving N/NW to higher terrain and at 1010 hours received small arms fire resulting in 1 KHA and 1 WHA. Co A reported that the enemy was well dug in and that elements of A Co were continuing up the ridge destroying bunkers on each side of the trail. Medevac was called at 1010 hours and completed for 1 KHA and 1 WHA at 1100 hours. At 1200 hours, Co A again received small arms fire from an unknown size enemy force, coming from well dug in bunkers and fighting positions. Artillery and ARA were employed, CS ship was called in and completed four runs. Using protective masks, Co A continued the attack and engaged an unknown size enemy force again at 1545 hours. Contact was broken by the enemy and during later maneuvers to the west of the ridge Co A was again fired on by well dug in NVA forces. Co A pulled back and coordinated artillery, ARA, and additional CS drops. An air strike was called in at 1840 hours, and resulted in one secondary explosion vicinity of A Company's contact. At 1900 hours, Co A once again received small arms fire resulting in 1 KHA and 1 WHA. Medevac was called and completed at 1940 hours.

(b) Co B: Continued operations in support of the 3-187 Abn Inf and began early movement to the NW, vic of Hill 900. At 1150 hours, Co B found 2 NVA helmets, 1 AK-47, 4 RPG rounds, canteens, pistol belts and 5 well-constructed fox holes and a machine gun position (vic YC 320972). All equipment was evacuated. At 1450 hours, movement was detected to the rear of Co B. Gunships were called in and artillery was employed. At 1630 hours, Co B was fired upon by an unknown enemy size force with small arms and RPG's. Gunships that were on station also receiving automatic weapons fire. One NVA attempted withdrawal and was killed in the process by elements of B Co. Co B had 1 US KHA and 2 US WHA. Artillery, ARA and air strikes were employed on the enemy's location. All WHA were medevaced and completed evacuation at 1855 hours.

(c) Co C: Continued operations vicinity Hill 900, and providing security for the Bn Command Group.

(d) Co D: Continued security of FSB CURRAHEE and employed multiple LP's and AP's.

(e) Co E (-): DS security of FSB CURRAHEE.

(9) D Day + 8 (18 May 1969):

(a) Co A: Continued operations along the ridge line (vic YC 328968) and at 0700 hours received RPG fire from well-fortified bunkers to their north. There were no casualties. Artillery was placed on the enemy location. Air strikes were called in and completed at 0845 hours. At 0940 hours, artillery CS was employed (vic YC 328968). Immediately following the CS attack, Co A began receiving RPG and mortar fire. Gunships were employed. At 1531 hours, Co A observed 3 NVA. Enemy was fired upon resulting in 3 NVA killed. At 1545 hours, Co A reported receiving mortar rounds and that the unit was delayed in place by an unknown size enemy force in bunkers. Bunkers were attacked and destroyed and Co A proceeded to continue the attack, destroying the mortar position and killing 4 NVA. 4 US WHA's were expended, Co A continued the attack towards Hill 937 and reported their 4th platoon was in contact just south of Hill 937. Heavy RPG and automatic weapons fire was being received. Small arms fire was exchanged, and contact was broken by the enemy at 1935 hours. Co A reported finding and destroying 14 well-constructed bunkers, each containing 4-5 rounds of RPG ammo, vic YC 327973. At 1940 hours, Co A began to dig in for the night and at 1945 hours was again in contact. 1 NVA was killed and a base plate for mortar tube was destroyed.

(b) Co B: Continued their attack in the early hours and at 0900 hours, spotted 2 NVA attempting to sneak up on the rear element. When the NVA were close enough for small arms fire, Co B commenced firing and reported both NVA had been killed. At 1032 hours, (vic YC 320973) Co B received RPG fire, resulting in 1 US WHA. Medevac was called and completed at 1215 hours. ARA was called in on the enemy location. At 1115 hours, Co B was again under attack from all directions. Mortar fire, heavy RPG's and small arms fire was received. ARA was called in and mortar attack stopped at 1133 hours. At 1232 hours, Co B was again under mortar attack. Artillery and ARA were employed. Contact was made with 1 NVA (vic YC 321974), resulting in 1 NVA killed. Medevac was called at 1420 hours; however, wounded personnel had to be evacuated by the Battalion LOH. Due to enemy small arms fire, an LZ large enough to accomodate a LOH was available so the aircraft could land and be out of small arms fire. Again at 1620 hours, Co B engaged an unknown size enemy force. Medevac for 3 WHA was called and completed at 1640 hours. Contact was again made at 1910 hours. Contact continued until approximately 2040 hours. At this time, a LOH pilot was wounded in legs as he landed at Co B's LZ. Small arms fire was continually being placed on the enemy location and one platoon of Co B moved to and secured the downed LOH and wounded pilot.

(10) D Day + 9 (19 May 1969):

(a) Co A: At 0800 hours, Co A reported their forward element had received RRG fire and was in heavy contact. 3 US were WIA with shrapnel. Medevac was called and completed at 1020 hours. At 1035 hours, Co A engaged and killed 3 NVA in bunkers. Search of the bunker area revealed AK's, RRG's, and one .51 Cal MG. Since it was necessary to continue the attack immediately, Co A was unable to accurately count all the weapons but reported to the En Command Group, that Co C was following them and would pick up all weapons. Numerous bunkers were destroyed during the next few hours, and sporadic enemy contact continued until 1405 hours when Co A spotted 1 NVA and fired on him. Additionally 10-12 NVA were pinned down in bunkers to their immediate front. CO, Co A reported at 1450 hours that they had counted at least 20 bunkers with 2 NVA manning each bunker. The bunkers were well-fortified and were defended with AK's, RRG's, and LMG's. CO, Co A also reported that there were many more bunkers, and that he would continue the attack and destruction of the bunkers as rapidly as possible. At 1540 hours, Co A reported 4 NVA KIA, and at 1715 hours, had reached the top of Hill 900, just south of Hill 937. At 1837 hours, Co A engaged an unknown size enemy force and reported killing 6 NVA, all of which had neat hair cuts and appeared to have been in good physical condition. At 1910 hours, Co A found 1 dead NVA killed by small arms, and 3 killed by shrapnel. At 2003 hours, CO, Co A reported body count for the day was 18 confirmed. Also that NVA KIA's were wearing green khakis, NVA helmets, and some with leather shoes. At 2045 hours, CO, Co A reported 2 US KIA and 19 WIA's were evacuated, 4 WIA's were
at serious enough for immediate evacuation. Elements of 3-127 Abn Inf were observed on Hill 937.

(b) Co B: CO, Co B reported that the air strike in vic of his location was complete at 0835 hours. At 1030 hours, Co B reported that the pilot and LOH had been flown out of the area where it had been shot down on 18 May 69.

(12) D Day + 11 (21 May 1969):

(a) Co A: Search and destroy operations were continued by Co A
in vicinity of Hill 900. At 1055 hours, Co A found a diary and 82mm mortar firing data chart. Both were evacuated to HQ's 3rd Brigade. At 1300 hours, Co A began to search and destroy the bunker complex that they had fought through earlier. As a result of this search, they found 18 NVA KIA in the bunkers, killed by small arms and grenades. At 1500 hours, 6 more NVA KIA's were found and at 1540 hours, Co B found 6 more NVA KIA which were accredited to Co A's operation on 20-21 May 69. At 1535 hours, Co A found a bunker complex vicinity Hill 900, (YC 327977), containing 14 Chicom grenades, 4 RPG tubes, 40 B-40 rockets, 20-60mm mortar rounds, 4 AK-47's, 8 Chicom claymores, 5,000 rounds AK ammo, and several documents. All was destroyed except the documents and weapons which were later evacuated to HQ's, 3rd Brigade. Light contact continued, and at 1925 hours Co A once again found and entered a 28 bunker complex. In the complex, Co A found 25-82mm mortar rounds, 25-60mm mortar rounds, 5 RPG rounds, 1 RPG launcher, 1 PPD MG, and 13 Chicom grenades, 10 NVA rucksacks with new clothing, 1 diary and 7 NVA bodies. The weapons and equipment were evacuated and all bunkers were destroyed.

(b) Co B: Continued their search and destroy operation south of Hill 900, making contact throughout the morning hours. Sporadic contact continued and at 1540 hours, Co B found 6 NVA KIA that had been killed by Co A on 20 May 69. One .51 Cal MG was also found and evacuated. At 1645 hours, Co B captured one POW and evacuated him to HQ's, 3rd Brigade. At 1610 hours, contact was made with an unknown enemy size force and resulted in 2 US WIA. A medevac was called and completed at 1640 hours. Co B's 3 KHA's from 20 May 69 were found and evacuated from vicinity YC 327968 at 1825 hours.

(c) Co C: Continued search and destroy operations and providing security for the BN Command and Control Group. Sporadic contact continued throughout the day, resulting in Co C finding 9 NVA KIA at 1300 hours, and finding 15 bunkers, 25-82mm mortar rounds, 25-60mm mortar rounds, and 1 RPG launcher. All were destroyed, except the RPG launcher, between 1345 and 1600 hours.

(13) D Day + 12 (22 May 1969):
(a) Co A: Scheduled air strikes delayed the movement of Co A until 0945 hours. Three air strikes were employed vic YC 320970, with last air strike being completed at 0925 hours. FAC reported to Bn Command Group that one of his jets received heavy machine gun fire from Hill 916, (vic YC 315970). Artillery fire was placed on this area. Co A began movement at 0945 hours and made sporadic contact with the enemy throughout the morning hours. At 1215 hours, (vic YC 327977), Co A found 4 satchel charges, and 1,000 AK rounds. All were destroyed. Visual contact was established with elements of 1-502 Abn Inf at 1240 hours, after which Co A withdrew to the west, continuing their search and destroy mission.

(b) Co B: Movement was delayed because of air strikes, and at 0945 hours began to maneuver (vic YC 327968). At 1025 hours, Co B found and destroyed 4 well-constructed bunkers. The bunkers contained 3 Chicom grenades, 2 RPG cleaning kits (evacuated), 1 .51 Cal MG mount, 1 loaded RPG launcher, 1 AK-47, and 7 NVA KIA. The RPG launcher and the AK-47 was evacuated. At 1120 hours, Co B found 3 NVA gas masks that were booby trapped. All 3 were destroyed. At 1240 hours, Co B found 1 NVA KIA and 26 fresh graves, probably killed by Co C on 21 May 69. At 1400 hours, (vic YC 333968) Co B found a bunker complex with well-constructed fighting positions near each bunker. Also a resupply and suspected hospital complex was found. All bunkers and supplies were destroyed. At 1715 hours, Co B found 26 NVA KIA that had been recently killed by air strikes or artillery.

(c) Co C: Began movement at 0945 hours. At 1110 hours, (vic YC 327-968) Co C found 7 NVA KIA's who were killed by small arms fire. Sporadic fire was received throughout the day, and at 1630 hours, (vic YC 324969) Co C found 11 well-constructed bunkers that had been destroyed by artillery or air strikes. Search of the bunkers resulted in 18 NVA KIA and numerous trails caused by bodies having been dragged away. The search of the area continued and at 1920 hours, vic YC 327968 Co C found 19 more fighting bunkers of which 15 had been destroyed by artillery and air strikes. All were destroyed.

(a) Co A: Air strikes on Hill 916 again delayed the early movement
of all companies. Air strikes were employed and completed at 0810 hours. Co
A began movement (vic YC 324977) and found 3 NVA shirts with T/2-6 embro-
ieder on them. Also North Vietnamese writing on the trees in the area: "To
stay and fight - not run. This area is good to fight in." Co A received the
order to commence movement to vic YC 315970. At 0945 hours movement began
and immediately contact was made with an unknown size enemy force. Fighting
continued throughout the morning, and at 1450 hours, Co A found over 100
RG rounds and 1200 lbs of rice vic (YC 322973) that had been partially
destroyed by air strikes. At 1545 hours, Co A found (vic YC 322973), 4 M2
Carbines, 18 RPG rounds, assorted medical supplies, 180 Chicom grenades,
800 lbs polished rice, 1-82mm mortar sight, and 7 NVA KIA. All the equipment
except the weapons was destroyed in place. At 1615 hours, Co A found a number
of NVA shirts with embroidered patches on each left pocket: T2/8, T2/6,
and T.2. The T.2 had a red circle around it. The shirts were evacuated to HQ's
3rd Brigade. At 1910 hours, (vic YC 322973) Co A found 11 well-constructed
4-frame bunkers 8'X4'X4' with 3' of overhead cover. All were destroyed.

(b) Co B: At 0915 hours, Co B began to advance (vic Hill 916).
At 1050 hours, Co B was ordered to move his unit to YC 325973. Co B
immediately began manoeuvring and at 1050 hours, (vic YC 325973) found 3
bunkers containing RPG's and SKS's, 3 fresh graves, communication wire, and
a water line system. At 1120 hours in the same area, Co B found another
bunker containing mortar equipment, SKS's, AK-47's, RPG's, and 1 mortar tube.
The weapons were evacuated, and the bunkers were destroyed. At 1135 hours,
Co B found a cache of AK-47's, RPG's and numerous containers of small arms
ammunition. All were evacuated. At 1150 hours (vic YC 321973) contact was
made with an unknown size enemy force. Artillery and ARA were called in with
unknown results. Co B continued their search and at 1530 hours began
receiving mortar and RGG fire. Artillery was called in on the suspected
enemy locations. At 1600 hours (vic YC 315970) Co B found one MIA. The body
was extracted at 1805 hours.

(c) Co C: At 1010 hours Co C and Bn Command Group began to advance.
Sporadic contact continued throughout the morning hours, and at 1340 hours,
Co C linked up with Co A at YC 322973. At 1415 hours Co C found the bodies
of 5 NVA KIA that had been killed by small arms fire from elements of Co C
on 22 May 69. The search continued and at 1540 hours the company received
fire from a well-constructed bunker. The fire was returned with M-79's and
a subsequent search revealed one NVA KIA in the bunker. A large bunker complex
was found at YC 318971. Artillery was called in and Co C suffered 5 WHA's
by shrapnel from friendly ARA. The 5 WHA's were medevaced at 1620 hours. The
search operations continued throughout the remainder of the day.

(d) Co D: Continued security of FSB CURRAHEE. At 1345 hours, FSB
CURRAHEE received 6 incoming 122mm rockets. Counter-artillery was fired and
the rocket attack terminated at 1520 hours. All rockets hit outside the

(15) D Day + 14 (24 May 1969):

(a) Co A: Co A continued to search the area and spent the day destroying bunkers and small caches. By 1100 hours, the company had destroyed 16 bunkers, 8 fighting positions and at 1753 hours, found and destroyed 5 - 8'x8'x8' bunkers. At 2010 hours, Co 1-506 Abn Inf reported to CO, Co A that radar had picked up 10-15 NVA approximately 700-800 meters from their location, moving in their direction. Artillery was called in by Co A on the suspected enemy location. Search and destroy operations continued until Co A occupied their NDP at 2045 hours.

(b) Co B: Co B began the day's operation by receiving incoming mortar fire at 0750 hours. Artillery was employed on the suspected enemy location. At 0820 hours, (YC 323974) this company found 1 bunker containing 1 RPD MG, 42 SKS rifles, 1 M-16 rifle, 3-60mm mortar rounds, 2 US Cartriges, 7-82mm mortar rounds, 1 AK-47, 50-60mm mortar fuses, 128 powder charges for 60mm mortars, 4 propelling charges for 82mm mortars, 24 Chicom grenades, 15 RPG-2 rounds, 3 RPG charges, and 1 belt of .52 Russian manufactured ammo. All equipment was evacuated. At 1014 hours Co B began to advance and linked up with A Co at 1145 hours. Co B continued their search and destroy operations throughout the remainder of the day. At 2222 hours movement was detected by the company at YC 327469. Artillery was called on the suspected enemy location. Results were unknown, NDP occupied at 2030 hours.

(c) Co C: Co C and the Bn Command Group began to advance at 0745 hours and at 1003 hours, at YC 324973, found 4 bunkers containing 4 Chicom grenades, 22-82mm mortar rounds, 12-60mm mortar rounds, 40 lbs of polished rice and 2 SKS rifles. All items were evacuated except the following items which were destroyed: 23 Chicom grenades, 17 RPG rounds, 1 battery, 8 electric blasting caps, 7 non-electric blasting caps, 2-1/2 lb blocks of TNT, 2-82mm mortar fuses and 4 ignition fuses for 82mm mortars. At 1100 hours, Co 1-506 Abn Inf reported that Co C had destroyed 19 bunkers 6'x6' of which 11 had sleeping positions. That afternoon the company found 20 more well-constructed bunkers, 20 RPG rounds, 50 Chicom grenades, 3,000 rounds AK ammo, and 100 lbs of NVA demolition. Destruction of bunkers and cache kept the company busy for the remainder of the day until they occupied their NDP at 2040 hours.

(30) D Day + 29 (8 June 1969):

Operation "APACHE SNOW" officially terminated for the 1st of the CURRAHEES at 082400 hours. The day's activities consisted of Co A continuing operations northeast of FSB EAGLES NEST; Co B assuming responsibility for FSB BERCHTESGADEN and FSB EAGLES NEST; Co C and D being inserted into FSB GEORGIA for operations northeast of FSB EAGLES NEST; and Co E (-) remained as security for FSB CURRAHEE pending relocation of 1-506 Abn Inf Tactical Operations Center to EAGLES NEST on 9 June 1969.

12. Results:

a. The mission given the 1st of the 506th was successfully accomplished by destroying NVA/VC forces, base camps, and caches and denying him the use of the area of operations as a resupply location and staging area for replacement personnel.

b. Enemy losses:

(1) KIA: 159
(2) KBAA: UNK
(3) KBA: UNK
(4) CAPTURED: 1

c. Friendly losses:

(1) KHA: 22
(2) WHA: 136
(3) MHA: 1

d. Body to weapons ratio: 2:1

e. Enemy to friendly killed ratio: 7:1

22-23. Commander's analysis and recommendations:

A. (1) Observation. Units capturing enemy personnel are not permitted sufficient time to interrogate these personnel in order to obtain immediate tactical information.

(2) Discussion. On 21 May 1969 an NVA soldier was captured by B Company 1-506 who indicated a willingness to assist US forces. At the time of capture he had a shrapnel wound in the right leg and was treated by medics from B Company which helped to increase his willingness to cooperate. The Battalion was informed to immediately evacuate the individual to higher headquarters. Approximately six hours later the Battalion was informed that the POW revealed that an enemy recon platoon was located only 300 meters west of Co C 1-506 who had encountered enemy in that location the previous evening.

(3) Recommendation. That units be permitted to retain POW's for a sufficient period of time to obtain information of an immediate tactical value.

B. (1) Observation. Slow reaction time and inaccuracy of CS employment by UH-1 aircraft.

(2) Discussion. It took excessive time to get a CS ship on station and then CS was dropped so high that it was inaccurate and was greatly effected by wind.

(3) Recommendation. That more frequent use be made of CS drops and that CS pilots continually stay abreast of friendly locations and situations.

C. (1) Observation. When attacking enemy bunker complexes many chest wounds are constantly inflicted by small arms and fragments from RPG's, claymores and grenades.

UNCLASSIFIED

CONFIDENTIAL

(2) Discussion. Company C of the Battalion made use of flak jackets while attacking a bunker complex and also for protection of secondary 8" Artillery fragments that were firing a destruction mission on the complex. The objective was completely destroyed by the 8" fire and no enemy fire was encountered. No casualties were suffered from secondary fragments.

(3) Recommendation. That troops encountering bunker complexes utilize flak jackets and that 8" Artillery be used for destruction missions on bunker complexes prior to the assault. These type fires can be called in within 300 meters of friendly troops when troops take cover and utilize flak jackets.

D. (1) Observation. Very few adequate LZ's were available within the area of operation.

(2) Discussion. A rifle company must maintain within a one hour distance from an LZ for immediate extraction for contingency plans, medevac's, resupply, reinforcements, etc.

(3) Recommendation. That all rifle companies cut a minimum of one LZ daily. This can be accomplished by the platoon providing security for the company CP while the remaining platoons are conducting search and destroy or reconnaissance in force operations.

E. (1) Observation. Employing stay-behind forces upon departure from night defensive positions.

(2) Discussion. On 4 June 1969, Co B 1st Bn, 506th Abn Inf departed the NDP leaving the 2nd platoon as a stay-behind force. (See par 11 b. (26)). This action resulted in Co B springing a successful ambush when two NVA entered the NDP area within 30 minutes after B Company's departure.

(3) Recommendation. That all units employ maximum stay-behind forces. This type operation will normally yield more enemy contact and further, will confuse the enemy so that his plans must be changed.

F. (1) Observation. Units requiring resupply of water were witnessing a loss of water through use of plastic 5 gallon containers that were cracked when dropped from resupply ships.

(2) Discussion. Units of the 1st Bn, 506th Abn Inf required resupply at a higher rate than normal. Throughout, water containers were in short supply. 155 powder bag containers were used to resupply all units w/water and proved very effective for kick-out missions. They are water tight and sturdy enough to penetrate the jungle canopy when dropped from heights of 100 - 150 feet.
