3. Commanders Comments

Discussion

During the month of August D Troop remained OPCON'D to the 5/7 at Song Be (L.Z. Buttons). Operations conducted during the month consisted of sweeps (mounted and dismounted), route reconnaissance, area reconnaissance, security missions and quick reaction force. The first platoon of D Troop remained on base defense at Quan Loi. Additionally the Troop was further fragmented with two 106 recoiless rifle vehicles and crews being dispatched to Bo Duc, two 106 vehicles and one mortar to Nui Ba Ra. The two platoons at Song Be performed missions within their organizations and capabilities, the platoon at Quan Loi continued to perform the mission of an infantry platoon. The fragmentation of the 106 and mortars greatly distracts from the combat potential of the Troop.

4. Recommendations

That this Troop which was organized to be used as a highly skillful, fast moving, quick communicating Troop be utilized in it's entirety. Fragmentation of the Troop does not lend to its combat effectiveness and should be held to an absolute minimum. The true usefulness of this Troop is fully realized when used as a ground reconnaissance unit and as such can furnish commanders valuable and timely EMI.
