  1. **Strength**

     Strength currently: \( \frac{46}{100} \) of the total. After training, screening, and subsequent dropouts, the group would have only 200 people available.

     - Squad cadre confirmed: squad leaders 16
     - Assistant squad leaders: 20
     - Soldiers and call leaders acting as assistant squad leaders: 20
     - Platoons cadre are now on the job.
     - Capability levels of cadre and specialists are low.

  2. **Training**

     The time prescribed for the training is not sufficient, contents of training not appropriate. Training areas are not available, since the training requires troops to cross areas and populous areas with street lights, etc... Training area is lacking.
2. Supply and equipment

Clothing is not appropriate and consistent with Group's requirements. Black clothes are issued instead of green clothes as requested. The employees therefore were obliged to take off their clothes during night training sessions.

Meals is not adequate for the rigorous training.

4. Political and moral situation (reporter: Coussard Roy-Dang)

P.I.00 unit has 11 Party chapters
70 Party members
83 Group members

Nearly all Party members are Platoon enclaves. Few of then are squad cadre.

The unit has all persons having complex background: arrested or drafted by the enemy, having relationship with enemy personnel, etc...

Fear of hardship, fear of death and poor discipline were widespread, but were partly corrected after the indoctrination.

With a staff of cadre about 20 are now capable of fighting, to prove themselves below standards.

Advantages and difficulties encountered during the accomplishment of the mission:

- The mission assigned to the unit by the Military Region Party Committee and the PCG headquarters, to be achieved by October 1965 1st: to develop the unit and to train it to become a combat and battle-ready group, to be ready to fight and defeat Americans.

Advantages:

1. Direct subordination of the unit to the PCG and determination of personnel to achieve the missions given.

2. Personnel of the unit have undergone indoctrination in some of our leading cadre are combat experienced.

3. Majority of the unit personnel belong to the calling class and have hatred against the enemy.

4. The continuous defeats of the enemy arouse cadre and troops' enthusiasm.

5. The current land reform benefiting our cadre and troops' families.

Difficulties:
| 1. | The unit is understrength and has difficulties in finding replacements, in quality and quantity. |
| 2. | Controversial requirements during simultaneous training and combat. |
| 3. | The internal solidarity is not yet consolidated. |
| 4. | The element weather has affected the health of cadre and soldiers. |

**Recommendations**

1. Increase political knowledge of cadre and soldiers.
2. Improve endurance of leadership.
3. Improve discipline.
4. Increase the number of Party and Group numbers in the unit.
5. Improve the sense of preservation of secrecy.
6. Reinforce control on agents.
7. Expand training on 3 man cell, squad and platoon in independent operations.

**Use of Funds**

Certified funds are allowed only to inner forces for use in communication and liaison, reconnaissance and camouflage tasks.
