Supply Activities of CQ9 Hospital

Letter, dated 21 Jun 66, addressed from CQ9 Hospital to:

- Current Affairs Committee, Provincial Party Committee
- Served CIVIL AFFAIRS Committee, Agency DCC
- Comrade NH KHANH of the Finance-Economy Section
- Forward Supply Council

Addressed were requested to take necessary action to provide the hospital with a regular supply of rice. It was explained that the hospital was ordered to draw its rice supplies from Phùc Tăn Village which was its nearest supply point; however, the Provincial Finance-Economy Section was unable to provide transportation for the rice to Tăn Lồng due to the shortage of horses. In most instances, horses were used by the transportation unit of Phùc Tăn in priority missions and the hospital had to wait from 10 to 15 days before it received necessary transportation to move the rice. Due to the limited stock of rice, the hospital would not be able to provide the patients their 700-grams if the transportation problem could not be solved.
